Data Science 101 for Startups-Aggregation in SQL — Part 1

Data Science in a nutshell

5 Tips To Improve Collaboration Between Data and Business Teams

How to work with Google Analytics data in BigQuery

Jimmy Pang

Data Leader | Snowflake/dbt/Airflow/SQL/BI | Berlin Startups
#OpenToWork – 80% Fraud (Trust), 50% CS (Ops), \$24M Payments (Finance), 20% Auth (Warehouse)

Berlin, Berlin, Germany

Summary

Leader accelerating Berlin startups with Snowflake/dbt/Airflow/SQL/BI. Ex-Vestiaire: 80% fraud reduction (Trust), 50% CS speedup (Ops), \$24M payments redesign (Finance), 20% auth boost (Warehouse). Targeting Head of Data/Team Lead hybrid/remote—Bolt, Vinted, logistics/ecom/SaaS priority. 8+ yrs scaling teams/data infra @Delivery Hero/HelloFresh/Foodpanda.

Data Biz Substack founder: Practical leadership insights (dbt evolution, C-level data voice). Data Berlin Meetup regular.

Open to chats—DM for collabs or roles!

Experience

Data Biz (Substack)

Founder & Author

December 2025 - Present (6 months)

Data Biz is my Substack publication delivering strategic insights on data leadership, team building, stakeholder management, and turning data into measurable business impact. Drawing from 7+ years leading BI teams at Foodpanda, Delivery Hero, HelloFresh, and Vestiaire Collective, I share real-world lessons on people, process, and tools for data-driven transformations—without the ML jargon.

Key topics covered:

- Data strategy roadmaps and organizational alignment
- Frontline experiences bridging data teams with business outcomes
- Modern analytics engineering trends like dbt evolution and data marts

Launched from Berlin in late 2025, it's for data leaders seeking practical guidance over technical tutorials. Follow for weekly posts: jimmypang.substack.com.

Vestiaire Collective

Business Intelligence Lead

November 2021 - January 2026 (4 years 3 months)

Berlin, Germany

- Built BI squad from scratch: Hired 3 Analytics Engineers (2 direct), onboarded/mentored team + embedded analysts (Snowflake/dbt 4yrs expertise).
- Owned analytical roadmap across Operations, Sustainability, Consignment, Resale-As-A-Service; ensured synergy between Business, Product, Tech, and Data teams.
- Forged partnerships with senior executives (COO, CFO, CTO): Delivered transparent stakeholder management and quarterly roadmaps using MoSCoW/NOW-NEXT-LATER frameworks.
- Accelerated data product delivery (marts, dashboards) via tailored Agile Scrum (2-week sprints): Reduced backlog turnaround 84% (8 to 4 weeks).
- Drove key business impacts: 80% fraud incident reduction (Trust & Safety), 50% CS response time improvement (48-24hrs, Ops award), \$24M payments infrastructure redesign (Finance), 20% authentication speedup (Warehouse, 500K listings).
- Elevated data visualization and governance: Hands-on mentorship/SOPs, Elementary DQ checks/alerts, dbt Exposures for P0 asset automation.
- Led Data Mesh pilot (Amazon 6-pager pitch): Partnered on SSoT/KPI certification across CRM/Ops/Marketing, enabling Airflow autonomy.

HelloFresh

5 months

Product Analytics - Global Supply Chain Management Tech | Logistics

June 2021 - October 2021 (5 months)

Berlin, Germany

- Owned analytics for global Logistics products (18 countries): Built source-of-truth dashboards for on-time/late delivery (OTLD) and Metapack latency tracking.
- Led analytical strategy: Explored ad-hoc topics, documented reproducible insights via dashboards (Tableau/BigQuery).
- Collaborated with Product/Tech leads (Product Lead/Owner, Tech Lead): Guided development direction, empowered local Logistics Managers for ad-hoc analysis.
- Gatekept data quality for downstream decisions; shared best practices in Analytics chapter (reporting standards, data literacy).

- Enabled demand shaping, fulfillment opt, last-mile delivery via cross-functional analytics (SCM executives).

Product Analyst

June 2021 - October 2021 (5 months)

Supply chain analytics (global scope): Product analytics for HelloFresh's global supply chain operations across 16-18 countries + US. Built logistics dashboards to establish source of truth for on-time/late delivery metrics and exposed Metapack Event Latency data to enable carrier performance monitoring.

Delivery Hero SE

2 years 10 months

Business Intelligence Analyst - Global Vendor Logistics Products

August 2018 - May 2021 (2 years 10 months)

Berlin, Berlin, Deutschland

- Led data for Global Vendor Logistics: Partnered Product Owners/Tech Leads/Execs on KPIs, dashboards (Tableau/Looker/Metabase), A/B tests (GA/Firebase/GTM).
- Built Data Warehouse from scratch (ETL/ELT, BigQuery/Python/Airflow modeling); migrated to Git/CI-CD/Sanity/Catalog (Gitbook)—foundation for Data Mesh blueprint.
- Democratized self-service analytics (Looker/Tableau): Trained users, cut central team dependency for 200+ stakeholders (Product/Ops/Eng).
- Pioneered Agile project mgmt (Kanban→Scrum, Confluence docs): Streamlined data delivery.
- Co-founded Data Guild (200+ global members, 50 countries): Hosted ML/data eng meetups, CTO-endorsed knowledge sharing.

Business Intelligence Analyst

August 2018 - May 2021 (2 years 10 months)

Founded BI infrastructure for Vendor Logistics vertical—built Data Warehouse from scratch (leveraging Foodpanda domain expertise) to solve data infrastructure gap (5 AWS regions, monolithic backend). Architected greenfield GCP → BigQuery migration with Airflow + CI/CD, delivered few hundred data models and source-of-truth dashboards for 200+ users—decentralized architecture became blueprint for Delivery Hero's Data Mesh strategy.

foodpanda

Business Intelligence Analyst

March 2017 - July 2018 (1 year 5 months)

Hong Kong

- Owned end-to-end analytics for Hong Kong market: Solo BI delivering insights for Ops/Marketing/Finance/BD.
- Drove 22% order growth + 10% GMV via campaign analysis; optimized courier recruitment (CR/cohort/fill-rates) despite weather/festivals.
- Facilitated exec decisions: Hotspot reports for marketing zones, delivery sizing.
- Boosted data literacy: Created KPIs/dashboards (10-15 Tableau), trained team on alignment/usage.
- Automated reporting (PostgreSQL/VBA/PostGIS); collaborated HQ on ML algos/staffing (Rider CRs), flagged dashboard issues—led to DH referral

Foodpanda|Foodora

Business Intelligence Analyst

March 2017 - July 2018 (1 year 5 months)

Solo BI Analyst for Hong Kong market (post-Delivery Hero acquisition)
—owned end-to-end analytics for Operations (courier recruitment/fleet dashboards/compliance/payslip), Marketing/Account Management, Finance, and Business Development. Drove 22% order growth and 10% GMV increase through campaign analysis, optimized courier recruitment for fleet capacity (%CRs, cohort, fill-rates), improved staffing algorithms by identifying blind spots (weather, festivals, campaigns), and delivered order hotspot analysis for delivery zone optimization.

Hayes-Corp

Revenue Operation Specialist

October 2014 - March 2017 (2 years 6 months)

Hong Kong

- Monetized 30k+ mobile games: Managed ad inventory (Banner/Fullscreen/Rewarded Video) across vendors (Google DFP/AdX/AdMob, FB/Twitter/AdColony).
- Optimized profitability: Monitored Impressions/eCPM/Revenue/Sessions; maximized session utilization.
- Led revenue ops for 4 PRC teams (Chengdu/Guangzhou/Nanjing/Kunming): Aggregated overviews to C-level.
- Troubleshoot end-to-end: Ad policy disputes, issues flow with Tech/Brand/Product; managed 1 junior

Ka Kong Trading Company

eCommerce Executive

August 2012 - August 2014 (2 years 1 month)

Hong Kong

- eCommerce Operation

1. Boost up 20% ~ 30% of GMV by well-organizing tech resources and introduced cloud management tools
 2. Bring 4 eBay accounts performance to be Top-Rated Seller level in US, UK and AU markets
- Provide satisfying customer service experience promptly through eBay inmail system
3. Generate insight into market on eBay and Amazon with built-in analytics tools and CSV exports

- Logistics Operation

1. Processing delivery orders accurately and assist in the logistic process
2. Keep track of delivery status accurately and update the customer in a timely manner
